Pull request:		

Description

Trying out the OpenStack compute provider against Red Hat OpenStack Platform 4 (Havanna) I get the attached traceback when trying to create an instance.

Do note that I do note that I haven't requested a floating IP to be allocated nor assigned to the instance.

History

#1 - 05/27/2014 08:22 AM - Dominic Cleal

- Subject changed from *Instance creation fails on OpenStack when no floating IP is allocated* to *Instance creation fails on OpenStack when no floating IP is allocated (wrong number of arguments (1 for 2))*

- Category set to *Compute resources*

#2 - 09/26/2014 07:11 AM - Dominic Cleal

- Category changed from *Compute resources* to *Compute resources - OpenStack*
