Foreman - Bug #5939

Buttons remain hidden when switching tab during compute profile edit on compute resource page

05/27/2014 01:25 PM - Dominic Cleal

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1101535
Description of problem:
When We open a detail of "Compute profile" in "Compute Resource", buttons "Associate VMs", "Edit", "New Image" are hidden. But buttons still hidden, when we switch tab (ex. "Images").

Version-Release number of selected component (if applicable):
foreman-1.6.0.9-1.el6sat

How reproducible:
100%

Steps to Reproduce:
1. We have got Sat6.0 with some compute resource (in my case EC2)
2. Open detail of our compute resource and click on "Compute profile"
3. Open detail of some "Compute profile" (in my case 1-small)
4. We can see, that buttons are hidden. (I think, better choice would be disabled of them)
5. Click on another tab (ex. "Images"). Buttons are still hidden !!!
6. We have to click back on "Compute profile" and close a detail (using a small gray icon X on right side of window).

Actual results:
This is not very intuitive.

Expected results:
I think, We have two ways of solutions:
1. We can use popup modal window (when we open detail of "Compute profile", all others parts of page will be disabled / gray)
2. Buttons are still displayed (may be some of them disabled). When we click on another tab, detail of "Compute profile" would be closed.

- Priority changed from Normal to Low

Make sure you go via the compute resource detail page to see this bug. Compare when you press the X on the compute profile edit versus when you change tabs.
