Katello - Bug #5940

when waiting for content view versions list to appear, there is not spinning "Loaging..." sign

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1080361
Description of problem:
When you are waiting for content view versions list to appear in webUI, there is not spinning "Loaging..." sign. This is confusing because there is no clear indication if table is just empty, or waiting for data (and it takes about 90 seconds).

Version-Release number of selected component (if applicable):
Satellite-6.0.3-RHEL-6-20140321.2

How reproducible:
always

Steps to Reproduce:
1. Sync RHEL 6.5 RPMs + kickstarts
2. Create content view and assign these two repos to it
3. Create/publish new version of the CV - it will take some time to publish it
4. Go to Content -> Content Views -> <your_CV> -> Versions

Actual results:
No "Loading..." sign indicating something happens.

Expected results:
There should be "Loading..." sign, or the process should be much faster

Additional info:
Maybe this is not a webUI issue. Looks like for these 90 seconds Satellite 6 system gets load >1, so maybe there is something broken there.
