Katello - Feature #5968

Proxy candlepin request to get available releases to System.available_releases

05/28/2014 12:43 PM - Michael Stead

Status:	Closed		
Priority:	Normal		
Assignee:	Michael Stead		
Category:	API		
Target version:	Katello 2.0		
Difficulty:		**Fixed in Releases:**	
Triaged:	Yes	**Found in Releases:**	
Bugzilla link:	1104795	**Red Hat JIRA:**	
Pull request:			

Description

Katello should intercept requests to GET /consumers/:id/available_releases and return the system's available release versions as viewed by katello.

RHSM will leverage this and bypass its default CDN lookup in order to report the same set as katello.

Revision f40affde - 06/03/2014 11:36 AM - Michael Stead

Fixes #5968: Intercept candlepin request to get available releases

Intercept requests to GET /consumers/:id/available_releases and return
the system's available release versions as viewed by katello.

Added /api/available_releases to the root resource so that RHSM
can check to see if it is enabled on the server.

This API is only intended to be called by a registered consumer.

Revision 7121ed5e - 06/04/2014 08:13 PM - Eric Helms

Merge pull request #4181 from mstead/Fixes-5968-release-versions

Fixes #5968: Intercept candlepin request to get available releases
