Description	
<p>When you go to Product -> Repositories to see the sync status of a server the message states that the times are relative to the server which is not entirely true. See the example below:</p>	
<p>Client: EST time Server: UTC time Action: Forced synchronization of a repository at 10:49 AM EST (Client time)</p>	
<p>Result: The following message appeared in the GUI</p>	
<p>Sync Status All dates and times below are relative to this server. Sync Interval Daily at 11:00:00 PM -> Server UTC Time Last Sync May 30, 2014 10:49:21 AM -> Client EST Time Next Sync May 30, 2014 11:00:00 PM -> Server UTC Time Sync State finished</p>
