Description

I upgraded my Debian/sid box last night and foreman (as well as all puppet runs) stopped working.

I finally tracked it down to line 13 of /usr/share/foreman/vendor/ruby/2.1.0/gems/ruby_parser-3.0.4/lib/ruby_lexer.rb

I updated the file from

when /^(1\.9|2\.0)/ then

to

when /^(1\.9|2\.0|2\.1)/ then

and it stopped borking on me.
