<b>Bugzilla link:</b> 1103942	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
If you have a content view in library published few times and promoted a few times	
hammer repo list --organization-id=1 will return all repos across all content views and environments. Meaning it will return repos with the same name 10 or 20 times.	
Ideal behaviour would be to say something along the lines of "If you dont pass me an environment I am going to assume library/default content view version."
