Description

Installed forman-installer as per documentation via an apt-get from the foreman repository. Here is a transcript of what happened next:

```
root@mcadprod1:/etc/puppet# foreman-installer -i
/usr/lib/ruby/vendor_ruby/kafo/puppet_module_parser.rb:23:in `initialize': undefined method `[]' for nil:NilClass (NoMethodError)

History

#1 - 06/04/2014 11:06 AM - Dominic Cleal

- Project changed from Foreman to Installer

- Status changed from New to Need more information

Could you please provide output from: dpkg -l foreman-installer ruby-kafo ruby-kafo-parsers puppet so we know which versions are in use.

#2 - 06/04/2014 03:16 PM - Peter Berghold

Close this out.

After burning the server down to bare metal and trying again the foreman-installer worked just fine. Gremlins I guess.

#3 - 06/04/2014 04:19 PM - Dominic Cleal

- Status changed from Need more information to Rejected

Thanks, glad it's sorted.
