

Katello - Bug #6047

Content search renders poorly in some(?) circumstances

06/03/2014 08:29 PM - Eric Helms

Status: Closed	
Priority: Normal	
Assignee: Eric Helms	
Category: Web UI	
Target version: Katello 2.0	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1083319	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1083319	
Description of problem:	
When doing content search in Chrome, the results table seems to be dropped down below the results themselves (easier to explain in a screenshot)	
Version-Release number of selected component (if applicable):

How reproducible:	

Steps to Reproduce:

1. USING CHROME, create a content view containing content (say, a puppet repo or something) and promote it, etc.
2. Content > Content Search
3. Results > "+" (Org picker) to choose multiple orgs (two or more)
4. Select Puppet Modules from the left dropdown and submit

Actual results:

Rather than appear next to the results, in the Org columns as expected, it appears below it

Expected results:

Should render correctly.

Additional info:

See forthcoming screenshot, much easier to see.

Associated revisions

Revision 19dfc853 - 06/03/2014 08:30 PM - Eric Helms

Fixes #6047: Prevent search grid from folding under row headers, BZ1083319.

For some browser zoom levels, the grid rows would tuck up under the row headers. This reduces the width of the grid area allowing it to stay in place.

Revision 75b28f63 - 06/09/2014 12:13 PM - Eric Helms

Merge pull request #4208 from ehelms/fixes-6047

Fixes #6047: Prevent search grid from folding under row headers, BZ10833...
