Description
There is an inconsistency whereby Katello pages do not highlight the upper level navigation tabs but Foreman pages do.

Associated revisions

Revision 357d3dec - 07/15/2014 08:57 AM - Walden Raines

Fixes #6057: highlight active tab based on current URL.

Highlight the active menu tab based on the current URL
rather than relying on the controller and action. This
fixes a problem where top level menus that contain plugin
menu items were not being highlighted when active.
