

## Katello - Bug #6093

### hammer : description of options given under host-collection subcommands should be more clear and descriptive

06/06/2014 11:47 AM - Tomáš Strachota

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Tomáš Strachota	
<b>Category:</b> Hammer	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1103073	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1103073">https://bugzilla.redhat.com/show_bug.cgi?id=1103073</a>	
Description of problem: Description of options given under host-collection subcommands should be more clear and descriptive. For ex:	
<pre>[root@dhcp207-55 ~]# hammer host-collection remove-content-host --help Usage: hammer host-collection remove-content-host [OPTIONS]  Options: --id ID --name NAME          Name to search by --organization ORGANIZATION_NAME --organization-id ORGANIZATION_ID --organization-label ORGANIZATION_LABEL --system SYSTEM_NAME --system-id SYSTEM_ID -h, --help          print help</pre>	
Please make it more user friendly. User should understand all options by their description.	
here --id should have description like: ID of host-collection[required] --name should have description Name of host-collection --system Name of system	
There are other areas as well which are not clear. like:	
<pre>[root@dhcp207-55 ~]# hammer host-collection content-hosts --help Usage: hammer host-collection content-hosts [OPTIONS]  Options: --activation-key ACTIVATION_KEY_NAME --activation-key-id ACTIVATION_KEY_ID --id ID              Id of the host collection --organization ORGANIZATION_NAME --organization-id ORGANIZATION_ID --organization-label ORGANIZATION_LABEL --system SYSTEM_NAME --system-id SYSTEM_ID -h, --help          print help</pre>	
here what's the purpose of --system, assuming to list/search the list by specific list.?	
Version-Release number of selected component (if applicable): sat6 beta snap7 compose 2 (Satellite-6.0.3-RHEL-6-20140528.4)	

How reproducible:  
always

Steps to Reproduce:

- 1.
- 2.
- 3.

Actual results:

Expected results:

Description of options given under host-collection subcommands should be more clear and descriptive.
