

## Foreman - Feature #6098

### When adding Amis to the EC2 compute resource I would like to be told if I typed in a bad ami

<b>Description</b> Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1105671">https://bugzilla.redhat.com/show_bug.cgi?id=1105671</a> I created a compute resource in Foreman 1.5+. It was EC2, US-east. I then added an ami which was in oregon. This caused my provisioning to fail. I would have liked a screen to tell me that the ami could not be seen. Barring that, I would like to see a "validate this" button which checks that the amis are visible.
