

Katello - Bug #6126

Subscription manager routes should be anchored at their own API.

06/09/2014 06:20 PM - Eric Helms

Status:	Closed	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal

Refs #6126: Change RHSM API to /rhsm.

Revision 57a2dce4 - 07/14/2014 12:58 PM - Eric Helms

Fixes #6126: Moves RHSM routes to their own API (/rhsm) and routes file.

Prior, the RHSM routes were anchored at the Katello API and thus subject to versioning and changes made to the Katello API. However, the RHSM routes serve as a special set of routes that are outside the typical API rules and do not version similarly to the Katello ones. Thus, the RHSM routes have been moved out to their own route file and api anchor (/rhsm) to allow them to stand alone.
