Katello - Bug #6154

convert --environment, --environment-id in content-host to use
--lifecycle-environment,--lifecycle-environment-id and fix search by --lifecycle-environment

Description

--environment, --environment-id need in the content-host subcommand need to converted to
--lifecycle-environment, --lifecycle-environment-id respectively. --lifecycle-environment is much more clearer to the user.

There is also an issue with --environment trying to resolve to the environment resource instead of the lifecycle-environment resource.

Associated revisions

Revision 5e89a081 - 06/17/2014 04:03 PM - dustin tsang

Fixes #6154, #6253 - ak/ch name resolver for lfenv

Fixes a few issues with activation-key and content-host

1) This provides resource_alias from --environment, --environment-id
to --lifecycle-environment, --lifecycle-environment-id

2) fixes issue with resolving the environment by name:
--environment or --lifecycle-environment flag did not work
resolving by name was using environment resource instead
of the lifecycle-environment resource.

Revision 16978ad1 - 06/17/2014 05:41 PM - dustin tsang

Merge pull request #189 from dustint-rh/fix_ch_query_by_env

Fixes #6154 - ch lfenv option and resolve lfenv
