Description

Tried to use foreman api to set the values for smart variables in a hostgroup. The api did work and responded correctly.

This is the curl i used to set the variables in hostgroup:

curl -H 'content-type: application/json' -H 'Accept: application/json' -k -u '$USER:$PASS' $FOREMAN_URL/api/v2/smart_class_parameters/SMART_VARIABLE/override_values -X POST -d '{"override_value":{"value":"VALUE","match":"hostgroup=HOSTGROUP"}}'

Output :
{"id":19858,"match":"hostgroup=HOSTGROUP","value":"VALUE","created_at":"2014-06-11T11:10:42Z","updated_at":"2014-06-11T11:10:42Z"}

Problem Statement:
The values of the smart variables doesn't show up on the Foreman UI

The override value is created, but it doesn't show up in the UI if it's the first one created.
It's a Web UI issue.
