

Katello - Bug #6165

Content View will not display all the repositories on repository add menu

06/11/2014 01:21 PM - Justin Sherrill

Status: Closed	
Priority: Normal	
Assignee: Justin Sherrill	
Category: Web UI	
Target version: Katello 2.0	
Difficulty: medium	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1108156	Red Hat JIRA:
Pull request:	
Description	
Description of problem: When I attempt to look for repositories to add, I can only see 16 of the 40+ repositories known to Katello. The UI seems to glitch out as I continue to add repositories to the content view.	
Version-Release number of selected component (if applicable): 1.5.0-14.201406101627git8fd5341.el6	
How reproducible: Very	
Steps to Reproduce: 1. Create more than 16 repositories in Katello. 2. Create a Content View 3. Verify all the repositories are visible under the Repository Add Menu under the newly created content view. You will be unable to see more than 16.	
Actual results: Only capable of viewing the first 16 repositories	
Expected results: Should be able to view all the repositories available.
