

## Katello - Bug #6175

### Attaching a subscription to a Content Host doesn't refresh the subscription indicator

06/11/2014 09:32 PM - David Davis

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> David Davis	
<b>Category:</b> Subscriptions	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1102951	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/Katello/katello/pull/4559">https://github.com/Katello/katello/pull/4559</a>	
<b>Description</b>	
<p>When you use the Satellite 6 UI to attach a subscription to a registered content host the subscription remains invalid until you leave that specific content host and then visit a different one and come back.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"><li>1) register 2 different systems <b>without</b> an activation key and ensure that it is in an invalid subscription state</li><li>2) Login to the webui, select org and find system just registered</li><li>3) Try to add a subscription (RHEL) and get the system from RED/GREY to GREEN, not that you still get "Invalid"</li><li>4) Leave that Content Host's details page and view the 2nd system you registered in step 1</li><li>5) Go back to the original system and you should see it in the 'green' status</li></ol>

##### Revision 0581429e - 06/12/2014 10:06 AM - David Davis

Fixes #6175 BZ1102951: Worked on updating content hosts details

Fixed a bug where content host details weren't be updated after adding or removing a subscription. The status would still indicate invalid/valid (respectively). I had to use \$parent here as updating \$scope.contentHost for some reason did not update the webpage.

##### Revision 6ffdc265 - 06/12/2014 02:06 PM - David Davis

Fixes #6175 BZ1102951: Worked on updating content hosts details

Fixed a bug where content host details weren't be updated after adding or removing a subscription. The status would still indicate invalid/valid (respectively). I had to use \$parent here as updating \$scope.contentHost for some reason did not update the webpage.

##### Revision e9575b6f - 06/13/2014 10:46 AM - David Davis

Merge pull request #4254 from daviddavis/update-system-info-subs

Fixes #6175 - Update content host info after adding/removing sub

##### Revision a910ae61 - 06/13/2014 02:46 PM - David Davis

Merge pull request #4254 from daviddavis/update-system-info-subs

Fixes #6175 - Update content host info after adding/removing sub

##### Revision 958c422f - 08/11/2014 12:25 PM - David Davis

Fixes #6175 - Handle new status icon that was added

In the following commit we added a new status icon but didn't check to make sure that it was properly refreshed so #6175 was reopened to deal with this.
