<b>Description</b>	
<p>It would be nice if the WUI would sort things like the compute resource, subnet, etc dropdowns in some more human readable(which would probably mean alphabetical) way. Right now it sorts by ID as far as I can tell. As an example we have ~50 subnets and compute resources defined currently, and more on the way, finding the right one in those lists gets fairly tricky at times. Alphabetical sorting would make this a lot easier.</p> <p>I also noticed this FR: <a href="http://projects.theforeman.org/issues/1870">http://projects.theforeman.org/issues/1870</a> Doesn't seem to have made it in though?</p>
