<b>Pull request:</b>		

#### Description

Cloned from [https://bugzilla.redhat.com/show\\_bug.cgi?id=1108618](https://bugzilla.redhat.com/show_bug.cgi?id=1108618)

Description of problem:

puppet modules are not filtered by organization

a) when adding puppet modules to content view, WebUI lists all puppet modules including modules from other organizations which cannot be added to content view

b) when other organizations contains more versions of puppet module all versions can be added to content view:

(ACME\_Corporation repo)

```
1. hammer puppet-module list --repository-id 1
```

```
-----|-----|-----|-----  
ID          | NAME | VERSION | AUTHOR  
-----|-----|-----|-----  
4a09ade1-a904-482a-9be6-642a2a8a395a | wget | 1.3.1 | maestrodev  
97208df9-0925-4b91-970d-4facbf47e6b | stdlib | 3.1.0 | puppetlabs  
78239c4b-40fe-4129-b134-84aea666fa04 | git | 0.1.0 | jproyo  
-----|-----|-----|-----
```

(other organization repo)

```
1. hammer puppet-module list --repository-id 2
```

```
-----|-----|-----|-----  
ID          | NAME | VERSION | AUTHOR  
-----|-----|-----|-----  
5619f1a2-d3dd-4e13-89a6-3927d4de8064 | good | 2.0.0 | adob  
d6e95c61-3ff4-4221-84bb-d1e6d229ca81 | wget | 1.4.2 | maestrodev  
073d001b-f879-4420-8aa4-600a1273aba0 | stdlib | 2.4.0 | puppetlabs  
-----|-----|-----|-----
```

```
1. hammer content-view create --organization ACME_Corporation --name cv1
```

```
1. hammer --csv content-view list --organization ACME_Corporation
```

```
Content View ID,Name,Label,Composite,Repository IDs  
5,cv1,cv1,"", ""
```

```
1. hammer content-view puppet-module add --content-view-id 5 --uuid d6e95c61-3ff4-4221-84bb-d1e6d229ca81  
Puppet module added to content view
```

c) when adding puppet module which is only in other organization then exception is raised:

```
1. hammer content-view puppet-module add --content-view-id 5 --uuid 5619f1a2-d3dd-4e13-89a6-3927d4de8064  
Could not add the puppet module:  
undefined method `version' for nil:NilClass
```

and then puppet-module list command raises exception too:

1. hammer content-view puppet-module list --content-view-id 5  
undefined method `version' for nil:NilClass

Version-Release number of selected component (if applicable):  
Satellite-6.0.3-RHEL-6-20140605.0

## Associated revisions

### Revision 07c132f6 - 06/18/2014 06:56 PM - Justin Sherrill

fixes #6243 - making available module list org aware

the KTEEnvironment#puppet\_repositories function did not take the actual environment into account when returning repositories, so it would list all puppet repos across katello

### Revision aeb83a5b - 06/18/2014 07:34 PM - Justin Sherrill

Merge pull request #4277 from jlsherrill/puppet

fixes #6243 - making available module list org aware
