

Katello - Bug #6265

katello-disconnected fails to import manifest

06/18/2014 05:13 AM - Partha Aji

Status: Closed	
Priority: Normal	
Assignee: Mike McCune	
Category: Inter Server Sync	
Target version: Katello 2.0	
Difficulty: easy	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1083201	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1083201 after the move of Katello to an engine inside forman our path to the libraries has changed. This causes errors such as:	
<pre>1. katello-disconnected setup --oauth-key=katello /opt/rh/ruby193/root/usr/share/rubygems/rubygems/custom_require.rb:36:in `require': cannot load such file -- /usr/share/katello/app/lib/util/cdn_var_substitutor.rb (LoadError) from /opt/rh/ruby193/root/usr/share/rubygems/rubygems/custom_require.rb:36:in `require' from /usr/bin/katello-disconnected:43:in `<main>'</main></pre>	
everything now is in /opt/rh/ruby193 ...	

History

#1 - 06/18/2014 05:13 AM - Mike McCune

- Target version set to 48
- Triaged set to No
