Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1091941	
Description of problem:	
Promotion Help tip says "one or more", but UI allows only selection of a single env to be promoted. [That is when we have multiple promotion paths]	
What the promotion "help tip" says on the UI and the actual functionality differ.	
"Choose one or more lifecycle environments from the existing promotion paths available in '<Org>'."	
Version-Release number of selected component (if applicable): Satellite-6.0.3-RHEL-6-20140404.0/	
How reproducible:	
Have 2 promotion paths	
Library --> Dev --> Test --> Prod Library --> Dev2 --> Test2 --> Prod2	
Steps to Reproduce:	
1. Have 2 promotion paths 2. create a CV 3. Try promoting/selecting multiple env while promotion as per the help tip.	
Actual results:	
Text saying "one or more" contradicts actual functionality	
Expected results:	
Looks like we can select only "one Env" for promotion,
