<b>Description</b>	
I am attempting to remove an openstack compute resource which is no longer tied to any hosts and receive the following error:	
PG::ForeignKeyViolation ERROR: update or delete on table "images" violates foreign key constraint "hosts_image_id_fk" on table "hosts" DETAIL: Key (id)=(1) is still referenced from table "hosts". app/controllers/compute_resources_controller.rb:72:in `destroy' app/models/concerns/foreman/thread_session.rb:33:in `clear_thread' lib/middleware/catch_json_parse_errors.rb:9:in `call'	
If you need any further details let me know. I verified and no hosts are currently using this resource.
