Katello - Bug #6291

puppet-module --id vs --uuid inconsistency

06/19/2014 02:56 PM - Tomáš Strachota

Pull request:			

Description

There are some identifier inconsistencies in commands around puppet-modules:

```
hammer puppet-module list
# shows only UUIDs

hammer puppet-module info
# parameter --id actually requires UUID

hammer content-view puppet-module list
# shows both numeric (activerecord) id and UUID

hammer content-view puppet-module remove
# --id accepts numeric ids
```

This is very confusing.

Revision d93a8fb2 - 08/22/2014 10:30 AM - dustin tsang

Fixes #6291 - puppet module display and takes uuid

this changes puppet-module commands so they consistently display uuids
and take uuids for options. The database ids will be hidden and uuids
displaye dot users will be laelled as lds. all the --id filags will
accept uuids.
