

## Katello - Bug #6336

### 500 ISE on creating an activation key with same name as the one already exists in other org

06/23/2014 11:57 AM - Thomas McKay

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Christine Fouant	
<b>Category:</b> Web UI	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1105024	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1105024">https://bugzilla.redhat.com/show_bug.cgi?id=1105024</a>	
Description of problem:	
I created an org "org1" and created a activation key with name "ak1" under org1. Later, i created another org "org2" and tried to create an activation key with same name "ak1" (as the one already in org1) but this time I couldn't able to save the create activation key form. And production.log thrown an 500 Internal Server error:	
Processing by Katello::Api::V2::ActivationKeysController#create as JSON Parameters: {"usage_limit"=>-1, "name"=>"ak1", "environment"=>{"id"=>2, "name"=>"Library", "select"=>true, "selected"=>true}, "content_view_id"=>2, "organization_id"=>"3", "api_version"=>"v2", "activation_key"=>{"name"=>"ak1", "organization_id"=>"3", "usage_limit"=>-1, "content_view_id"=>2}}	
PGError: ERROR: duplicate key value violates unique constraint "index_activation_keys_on_label"	
Version-Release number of selected component (if applicable): sat6 beta snap8 (Satellite-6.0.3-RHEL-6-20140604.0)	
How reproducible: always	
Steps to Reproduce:	
1. Create org1 2. create activation key with name ak1 under org1 3. create org2 4. create another activation key with same name "ak1" under "org2"	
Actual results:	
Processing by Katello::Api::V2::ActivationKeysController#create as JSON Parameters: {"usage_limit"=>-1, "name"=>"ak1", "environment"=>{"id"=>2, "name"=>"Library", "select"=>true, "selected"=>true}, "content_view_id"=>2, "organization_id"=>"3", "api_version"=>"v2", "activation_key"=>{"name"=>"ak1", "organization_id"=>"3", "usage_limit"=>-1, "content_view_id"=>2}}	
PGError: ERROR: duplicate key value violates unique constraint "index_activation_keys_on_label"	
Expected results:	
I think user should be able to create activation key with same name in two different orgs and there shouldn't be any error in production.log	
Additional info:	

#### Associated revisions

##### Revision c61c7c7b - 06/25/2014 06:20 PM - Christine Fouant

fixes #6336, #6255 - Fixes issue with not being able to use same name for an activation key across multiple orgs, BZ 1105024, BZ 1109907, BZ 1105024

##### Revision fc12f932 - 06/25/2014 07:11 PM - Justin Sherrill

Merge pull request #4328 from cfouant/fixes-6336
