

Katello - Bug #6347

activation_keys.add_host_collections API removes host collections from the activation key

06/23/2014 11:25 PM - dustin tsang

Status: Closed	
Priority: Normal	
Assignee: dustin tsang	
Category: API	
Target version: Katello 2.0	
Difficulty: easy	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1101537	Red Hat JIRA:
Pull request:	
Description	
Description of problem:	
Calling @api.resource(:activation_keys).call(:add_host_collections, { :id => ak_id, :host_collection_ids => hc_ids }) does not associate host_collections with the activation key	
Version-Release number of selected component (if applicable): Satellite-6.0.3-RHEL-6-20140521.0-Satellite-x86_64	
How reproducible: always	
Steps to Reproduce:	
1. bundle exec irb irb> require 'apipie-bindings' irb> api = ApipieBindings::API.new({:uri => 'http://localhost:3000/', :username => 'admin', :password => 'changeme', :api_version=> '2', :aggressive_cache_checking => true}) irb> api.resource(:activation_keys).call(:add_host_collections, { :id => ak_id, :host_collection_ids => hc_ids })	
Actual results:	
<ul style="list-style-type: none">• API call runs without issues, but does not associate host collections with the activation key• according to config/routes/api/v2.rb it looks like :remove_host_collections is called instead	
Expected results: associate host collections with the activation key	
Additional info:	
<ul style="list-style-type: none">• <sat6>/apidoc/v2/activation_keys/add_host_collections does not have complete apidoc• Ivan's patch:	
diff --git a/config/routes/api/v2.rb b/config/routes/api/v2.rb index ad7cb9a..3456d10 100644 --- a/config/routes/api/v2.rb +++ b/config/routes/api/v2.rb
