

Katello - Bug #6367

Bug 1112664 - 'Access denied' when registering using --consumerid

06/24/2014 09:21 PM - dustin tsang

Status:	Closed	
Priority:	High	
Assignee:	dustin tsang	
Category:	API	
Target version:	Katello 2.0	
Difficulty:	easy	Fixed in Releases:
Triaged:	Yes	Found in Releases:
Bugzilla link:	1112664	Red Hat JIRA:
Pull request:		

Description

Created attachment 911709 [details]
relevant part of /var/log/foreman/production.log

Description of problem:

I created a content-host profile on sat6 using hammer and wanted to register and attach a client machine to the existing profile. The registration process failed with 'Access denied'.

Version-Release number of selected component (if applicable):
Satellite-6.0.3-RHEL-6-20140620.0

How reproducible:
always

Steps to Reproduce:

1. on sat6 server:

1. hammer content-host create --organization-id 1 --name try
Name: try
ID: 08044f08-ec92-4215-a2dc-3cb4f524c31f
Description: Initial Registration Params
Location: None
Lifecycle Environment: Library
Content View: Default Organization View
Entitlement Status: valid
Release Version:
Autoheal: true

Content host created

2. on the client machine:

1. rpm -qa katello-ca-consumer* #
2. rpm -Uvh <http://ibm-x3650-05.ovirt.rhds.eng.bos.redhat.com/pub/katello-ca-consumer-latest.noarch.rpm>
Retrieving <http://ibm-x3650-05.ovirt.rhds.eng.bos.redhat.com/pub/katello-ca-consumer-latest.noarch.rpm>
Preparing... ##### [100%]
1:katello-ca-consumer-ibm##### [100%] #
3. rpm -qa katello-ca-consumer*katello-ca-consumer-ibm-x3650-05.ovirt.rhds.eng.bos.redhat.com-1.0-1 #
4. subscription-manager register --consumerid 08044f08-ec92-4215-a2dc-3cb4f524c31f --force
Username: admin
Password:
Access denied

Actual results:

Access denied

Expected results:

Successful registration and attachment with the existing profile

Additional info:

Relevant part of /var/log/foreman/production.log in attachment.

This is a real blocker for system profile migration from Sat5.

Associated revisions

Revision e8655953 - 06/27/2014 06:02 PM - dustin tsang

Fixes #6367 - cnsmer_shw auth client/usr BZ1112664

access denied received when registering using subscription-manger using the consumerId flag was for a preliminary call to check that the consumer exists. This allows :consumer_show authorization through client or user instead of solely by client.

Revision 969ddc23 - 06/30/2014 10:36 AM - Eric Helms

Merge pull request #4338 from dustint-rh/subman_consumer_reg

Fixes #6367 - cnsmer_shw auth client/usr BZ1112664
