

Foreman - Bug #6379

500 ISE on creating a new host: Operation FAILED: can't convert nil into String

06/25/2014 11:41 AM - Dominic Cleal

Status: New	
Priority: Normal	
Assignee:	
Category: Host creation	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1113014	
Description of problem: I was trying to create a new host via UI and filled the form with all necessary info. But when I submit the form the firebug raised following error:	
"NetworkError: 500 Internal Server Error - https://dhcp207-190.lab.eng.pnq.redhat.com/hosts/shost.katellolabs.org/vm " vm ReferenceError: _ is not defined	
snippet from production.log ===== Processing by HostsController#vm as HTML Parameters: {"id"=>"shost.katellolabs.org"} Operation FAILED: can't convert nil into String Rendered common/500.html.erb (10.2ms) Completed 500 Internal Server Error in 46ms (Views: 15.4ms ActiveRecord: 3.8ms)	
Version-Release number of selected component (if applicable): sat6 beta snap10 compose3	
How reproducible: tried once	
Steps to Reproduce: 1. created new hostgroup and selected activation-key 2. filled up "New Host" form first with hostgroup and then unselect it 3. Filled all other details and submit the form	
Actual results: Processing by HostsController#vm as HTML Parameters: {"id"=>"shost.katellolabs.org"} Operation FAILED: can't convert nil into String Rendered common/500.html.erb (10.2ms) Completed 500 Internal Server Error in 46ms (Views: 15.4ms ActiveRecord: 3.8ms)	
Expected results: host should be created successfully
