

## Katello - Bug #6390

### 'Add/Remove Content-view' buttons under composite-view should be disabled when no CV is selected

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Walden Raines	
<b>Category:</b> Web UI	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b> easy	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1095098	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1095098">https://bugzilla.redhat.com/show_bug.cgi?id=1095098</a>	
Description of problem: UI shows 'Add Content-View' button to add selected CV to composite-view. But the button remains enabled, when there is no CV to add or even the listed CV is un-selected.	
Similar behaviour with 'Remove Content View' button	
Also, if you click on that button, without selecting any CV, UI raised a notification: Content-view updated.	
Version-Release number of selected component (if applicable):	
How reproducible: always	
Steps to Reproduce: 1. create a composite-view 2. select 'content-view' tab 3. click on 'Add' tab 4. click on 'Add Content View' button 5. Now click on 'List/Remove' tab 6. click on 'Remove Content View button	
Actual results: 1. The buttons (Add Content View and Remove Content View) remains enabled, when there is no CV to add or even the listed CV is un-selected. Also UI raised a notification: "Content View updated" on clicking those buttons	
Expected results: The buttons (Add Content View and Remove Content View) should be disabled, when there is no CV to add or even the listed CV is un-selected.
