

Katello - Bug #6443

system details ui - missing help text when release version choices are empty

06/30/2014 11:13 AM - Christine Fouant

Status: Closed	
Priority: Normal	
Assignee: Christine Fouant	
Category: Web UI	
Target version: Katello 2.0	
Difficulty: easy	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1043913	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1043913 This is a regression in the UI.	
Previously, when there were no choices for setting the release version a bit of help text was displayed.	
<pre>- if Katello.config.katello? - none_message = ("No alternate release version choices are available. These choices are based upon the repositories that have been enabled and promoted to this system's environment.") - else - none_message = _("No alternate release version choices are available. These choices are based upon the Red Hat manifest imported and the content available in the CDN.")</pre>
