

## Katello - Bug #6448

### broken API for registering a content host

06/30/2014 02:42 PM - dustin tsang

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> dustin tsang	
<b>Category:</b> API	
<b>Target version:</b> Katello 2.0	
<b>Difficulty:</b> easy	<b>Fixed in Releases:</b>
<b>Triaged:</b> Yes	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1114065	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
Description of problem: API for creating a content host fails with: "Cp type is not included in the list". cp type isn't among the list of required API parameters.	
Version-Release number of selected component (if applicable): Satellite-6.0.3-RHEL-6-20140619.0-Satellite-x86_64	
How reproducible: always	
Steps to Reproduce: 1. call API to create/register a content host:  <code>curl -s -H "Content-Type:application/json" -H "Accept:application/json,version=2" -k -u admin:changeme -X POST -d '{"name":"one", "organization_id":1, "type":"content host", "facts":{"1":1}}' `hostname`/katello/api/systems</code>	
Actual results: API fails with: { "displayMessage": "Validation failed: Cp type is not included in the list", "errors": { "cp_type": [ "is not included in the list" ] } }	
Expected results: content host created/registered	
Additional info: This is a blocker for system profile migration from Sat5.	

#### Associated revisions

##### Revision 4d138cc9 - 07/02/2014 04:54 PM - dustin tsang

Fixes #6448 - CH create w/o type and doc BZ1114065

fixes 2 issues:

- 1) fails to create system without type being set
- 2) correct documentation around the type parameter that asks the user to use the value 'content host' as the type

##### Revision ca3de6d7 - 07/02/2014 05:36 PM - Justin Sherrill

Merge pull request #4369 from dustint-rh/create\_CH\_with\_type

Fixes #6448 - cr/update CH with type CH BZ1114065
