Description

1) Go to Roles -> Filters -> New Filter
2) Select the resource types drop down
Notice some of the values there
Katello::ActivationKey
Katello::ContentView
Katello::GpgKeys
Katelo::....
......
Activation Key
Content View
.....

The Katello::ActivationKey maps directly to "Activation Key" so they should not show up as separate attributes.

fixes #6461 - create Katello permissions without quotes in db seeds

Katello seeds was creating incorrect permissions in the Foreman DB by
adding a set of superflous quotes -- e.g., "'Katello::ActivationKey'".
This commit removes the extra quotes.
