

Katello - Bug #6511

400 Bad request on clicking content-host --> Bulk Actions --> Errata

07/07/2014 09:50 AM - Brad Buckingham

Status:	Closed	
Priority:	Normal	
Assignee:	Brad Buckingham	
Category:	Web UI	
Target version:	Katello 2.0	
Difficulty:		Fixed in Releases:
Triaged:	Yes	Found in Releases:
Bugzilla link:	1109085	Red Hat JIRA:
Pull request:		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1109085

Description of problem:

UI is throwing 400 Bad request in production.log on accessing "Content-Host" --> "Bulk Actions" --> Errata

Version-Release number of selected component (if applicable):

sat6 beta snap9 compose2

How reproducible:

always

Steps to Reproduce:

1. register 2-3 content host
2. go to "bulk actions"
3. select Errata tab

Actual results:

Processing by Katello::Api::V2::SystemsBulkActionsController#applicable_errata as JSON

Parameters: {"included"=>{"ids"=>[], "resources"=>[]}, "search"=>nil, "excluded"=>{"ids"=>[]}, "organization_id"=>"1", "page"=>1, "search"=>""}, {"api_version"=>"v2", "systems_bulk_action"=>{"included"=>{"ids"=>[], "resources"=>[]}, "search"=>nil, "excluded"=>{"ids"=>[]}, "organization_id"=>"1", "page"=>1, "search"=>""}}

Katello::HttpErrors::BadRequest: No systems have been specified.

```

Revision 2825746d - 07/07/2014 04:45 PM - Brad Buckingham

fixes #6511 / BZ 1109085 - content host bulk errata fixes

This commit addresses a couple of small UI issues with the content host bulk errata action. The issues were:

1. If no content hosts are selected, do not retrieve applicable errata from the server. The API requires the user to provide at least 1 content host; therefore, no need to send the request with 0.
2. If no content hosts are selected, disable the refresh and install actions.
