<b>Pull request:</b>	<a href="https://github.com/foreman/smart-proxy/pull/182">https://github.com/foreman/smart-proxy/pull/182</a>	
<b>Description</b>		
It does not currently contain any chef-specific code and it's easier for other plugins to use if it's in the core.		

#### Associated revisions

##### Revision 6108539b - 08/06/2014 09:10 AM - Martin Milata

fixes #6522 - move request code out of chef module

The patch also moves `foreman_ssl_ca`, `foreman_ssl_cert` and `foreman_ssl_key` config options from Chef plugin config to global config and adds fallback to the `ssl_*` options if these are not defined.
