

Foreman - Bug #6537

Entering a very large number for idle_timeout is unchecked, crashes UI

07/09/2014 06:04 AM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee: Ori Rabin	
Category: Settings	
Target version: 1.6.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1113349	Red Hat JIRA:
Pull request: https://github.com/theforeman/foreman/pull/1582	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1113349	
Description of problem: Idle timeouts can be distracting. Thus, if a user enters a very large number in the config settings for idle_timeout, there is no bounds testing and the UI crashes.	
Version-Release number of selected component (if applicable): Satellite-6.0.3-RHEL-6-20140625.0	
How reproducible:	
Steps to Reproduce: 1. In config settings, change the idle_timeout value to something large like "9999999" 2. Begin navigating elsewhere in UI. 3. View results	
Actual results: We're sorry, but something went wrong.	
We've been notified about this issue and we'll take a look at it shortly.	
In production.log	
ArgumentError (year too big to marshal: 192146 UTC): /usr/lib/ruby/gems/1.8/gems/passenger-4.0.18/lib/phusion_passenger/rack/thread_handler_extension.rb:77:in `process_request' /usr/lib/ruby/gems/1.8/gems/passenger-4.0.18/lib/phusion_passenger/request_handler/thread_handler.rb:140:in `accept_and_process_next_request' /usr/lib/ruby/gems/1.8/gems/passenger-4.0.18/lib/phusion_passenger/request_handler/thread_handler.rb:108:in `main_loop' /usr/lib/ruby/gems/1.8/gems/passenger-4.0.18/lib/phusion_passenger/request_handler.rb:441:in `block (3 levels) in start_threads'	
Expected results: Sane bounds testing of this field (and all others!).
