

Katello - Bug #6550

db:seed after renaming default Organization fails (and probably location too)

07/09/2014 01:10 PM - Justin Sherrill

Status: Closed	
Priority: Normal	
Assignee: Brad Buckingham	
Category:	
Target version: Katello 2.0	
Difficulty: easy	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1117952	Red Hat JIRA:
Pull request: https://github.com/Katello/katello/pull/4521	
Description 1) install katello 2) rename the default org 3) run foreman-rake db:seed you'll get an error: Unable to create first org: Label already exists (including organizations being deleted);Organization Names and labels must be unique across all organizations

Revision 402fad5f - 08/05/2014 04:00 PM - Brad Buckingham

fixes #6550 / BZ 1117952 - fix issues with changing org name which affected running db:seed

Without these changes, the user cannot change the default organization name and re-run 'rake db:seed'. The reason being, it would attempt to create an organization with a label that was already in use and the seed would fail.

In order to address this, this commit does a couple of things:

1. when creating an org, if a label is automatically generated and it is already in use, re-generate the label using a uuid.
2. fix an existing validation which was incorrectly comparing name=label, label=name, etc. during org create and update.

Revision 9fab4dee - 08/06/2014 09:00 AM - Brad Buckingham

Merge pull request #4521 from bbuckingham/issue-6550

fixes #6550 / BZ 1117952 - fix issues with changing org name which affected running db:seed
