

Smart Proxy - Bug #6589

Trusted host list seems to be ignored

07/11/2014 09:40 AM - Martin Milata

Status: Closed	
Priority: Normal	
Assignee: Dominic Cleal	
Category: Security	
Target version: 1.6.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases: Nightly
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/theforeman/smart-proxy/pull/195	
Description	
The trusted host list does not seem to be used (migrate_settings.rb only moves the configuration value around).	
<pre>~/smart-proxy\$ git grep -l trusted_hosts config/settings.yml.example extra/migrate_settings.rb test/migration_settings.yml test/migration_test.rb</pre>	
If you decide to bring back the check, I would really appreciate if it was possible to exclude some REST API paths from the check because the ABRT plugin needs to accept problem reports even from untrusted hosts.
