Associated revisions

Revision 0a139060 - 07/23/2014 02:07 PM - David Davis

Fixes #6647,BZ1120335 - Remove old foreman org destroy routes

Removing old foreman destroy routes since they don't use dynflow to delete organizations.

Revision 9919e0ba - 07/25/2014 08:31 AM - David Davis

Merge pull request #4463 from daviddavis/temp/20140721155712

Fixes #6647,BZ1120335 - Remove old foreman org destroy routes

#5 - 07/17/2014 04:39 PM - David Davis

- Subject changed from Organization destroy API (/api/v2/organizations/1) does not use dynflow destroy to Foreman organization API (e.g. /api/v2/organizations/1) is still accessible

I was trying to approach this by pointing the route at the katello org controller. However, I think the better solution though is to remove the old routes. I don't think there should exist routes that aren't in our api docs.

#10 - 07/21/2014 07:42 PM - David Davis

- Subject changed from Foreman organization API (e.g. /api/v2/organizations/1) is still accessible to Foreman organization API destroy routes (DELETE /api/v2/organizations/1 and DELETE /api/v1/organizations/1) are still accessible

Making this more specific to org destroy since I need to also fix v1. Plus, [#6708](#) should fix the Foreman organizations API.
