<b>Description</b>	
On systems with an old version of Sinatra installed ( $\leq 1.0.a$ ), smart-proxy fails to start with the following message:	
<pre>./bin/../lib/sinatra-patch.rb:26:in `run!': undefined local variable or method `bind' for SmartProxy:Class (NameError)     from bin/smart-proxy:63</pre>	
On systems with a Sinatra version $\geq 1.0$ , everything is working fine.
