

Foreman - Bug #6693

UI shouldn't switch to other tab while creating OS parameters with same name or with blank name/values

07/20/2014 01:16 AM - Ori Rabin

Status: Closed	
Priority: Normal	
Assignee: Ori Rabin	
Category: Web Interface	
Target version: 1.6.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1120663	Red Hat JIRA:
Pull request: https://github.com/theforeman/foreman/pull/1611	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1120663	
Description of problem: I added OS parameter with blank name/value and UI raises error on submit but as soon as I submit the form, UI switched to main(Operating System) tab. It should stay on same 'Parameters' tab since error is raised under it.	
Version-Release number of selected component (if applicable): sat6 GA snap0	
How reproducible: always	
Steps to Reproduce: 1. create OS with parameters name/value as blank 2. submit it 3.	
Actual results: when you submit the form with blank name/value for OS parameters, neither the form was submitted nor you will see any error. Actually error raised but it displays only under 'Parameters' tab. Also, on submit the form, UI quickly switches from 'parameters' tab to 'operating system' tab	
Expected results: Since UI raised error so, It should stay on same page/tab where error was raised.
