

Smart Proxy - Bug #6700

Proxy::Puppet::Runner incorrectly checked \$? for success

07/21/2014 10:45 AM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee: Aaron Stone	
Category: Tests	
Target version: 1.6.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/theforeman/smart-proxy/pull/187	
Description	
<p>"The popen test was looking at \$?, but it wasn't set by the method under test. Testing Ruby's popen method isn't terribly helpful, it's a built-in.</p> <p>This replaces the popen test with a test for the shell_command wrapper and adds tests for the other methods in Proxy::Puppet::Runner."</p>
