Foreman - Bug #6716

Wrong hosts count on environment page

07/22/2014 05:23 AM - Antoine Cotten

Pull request:			

Description

I have 51 hosts in total managed by Foreman, split into 2 environments (prod/dev) as follows:

- prod: 49
- dev: 2

When I check the "Environment" page, this is what I see:

- prod: 52
- dev: -3

However the count is correct on all other pages ("Hosts", "Operating systems"), as well as when I perform a search.
