Foreman - Bug #6747

Parameters textarea automatic resizing

07/23/2014 03:48 AM - Daniel Lobato Garcia

Status:	Closed		
Priority:	Normal		
Assignee:	Daniel Lobato Garcia		
Category:	Web Interface		
Target version:	1.6.0		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/1609		

Description

When viewing the edit page for a host or a hostgroup, on the Parameters tab, the height of a parameter value would be calculated by the number of newline characters in it, or by default, be set to 1.

To make values easier to read, they should be automatically resized to expand to their entire content (up to a maximum of 100 pixels) when the Parameters tab is clicked.
