Target version: Katello 2.2	
Difficulty: medium	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link: 1102878	Red Hat JIRA:
Pull request: https://github.com/Katello/katello/pull/5181	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1102878 Description of problem: When we want to restart a slew of services in sat6, we can use 'katello-services restart'. There does not appear to be a method of easily doing this sort of thing for capsules. Version-Release number of selected component (if applicable): Satellite-6.0.3-RHEL-6-20140529.0 Steps to Reproduce: 1. Decide you want to try and restart capsule services 2. ??? Actual results: no way. Expected results: Profit! (or be able to easily restart capsule related services) Additional info:
