Foreman - Bug #6784

Parts of the menu are unsusable on mobile (tested with chrome on android)

Description

On mobile devices the parts in the menu that are deeper than one level, e.g. 'More -> Provisioning -> ...' are unreacheable on atleast the android version of chrome.

Tapping on 'More' expands the menu, trying to tap on anything under that will hide the menu. Only way to make the sub-menu visible is holding the item long enough for the "right click menu" to appear. This is seen at the end of the following video.

Video of this happening on a Nexus 4: https://www.youtube.com/watch?v=LtDPu9d4DcU (also attached)

Browser is Chrome 36.0.1985.128 on Android 4.4.4

1. rpm -q foreman
   foreman-1.3.0-1.el6.noarch

History

- Status changed from New to Feedback

Could you try a newer release please? The "More" menu hasn't existed since Foreman 1.4 as the menu system was reworked, so usability may be better now.

#2 - 07/28/2014 06:26 PM - Esa Varemo

- File Foreman on android 2.mp4 added

I installed a more recent version of foreman, "1.6.0-develop" according to the login screen. The issue persists. Again up to a certain "level" the menus are usable: closing as tapped, but also going to the target location. Tapping on the "Any organization" submenu as shown in the video only makes the menu disappear.

Also on the main page the widget panels go over the menu making it impossible to see the lower part of the menu.

Demo: https://www.youtube.com/watch?v=pt6hGSUutu0 (again also attached)

- Status changed from Feedback to New

Thanks for the feedback on the latest version.

#4 - 01/11/2021 08:19 AM - Tomer Brisker

- Status changed from New to Resolved

The whole menu structure has been rewritten since this issue was reported, closing.
