<b>Pull request:</b>		

#### Description

Cloned from [https://bugzilla.redhat.com/show\\_bug.cgi?id=1115634](https://bugzilla.redhat.com/show_bug.cgi?id=1115634)

Description of problem:

When user tries to delete a product that has content already existing in published/promoted CVs, an error is thrown. this error references changesets, an obsolete term. We need to fix the text.

Version-Release number of selected component (if applicable):

Satellite-6.0.3-RHEL-6-20140702.0

How reproducible:

Steps to Reproduce:

1. Publish/promote product content
2. Attempt to delete content
3. View error message

Actual results:

An error occurred removing the Products: Repository cannot be deleted since it has already been promoted. Using a changeset, please delete the repository from existing environments before deleting it.

Expected results:

Something that is more correct and certainly removes references to changesets.

Additional info:

#### History

##### #1 - 08/04/2014 10:59 PM - Eric Helms

- Assignee set to Brad Buckingham
- Target version set to 54
- Difficulty set to trivial
- Triaged changed from No to Yes

##### #2 - 08/05/2014 07:32 AM - Brad Buckingham

- Assignee changed from Brad Buckingham to Partha Aji

##### #3 - 08/05/2014 04:23 PM - Partha Aji

- Status changed from New to Closed

<http://projects.theforeman.org/issues/6829> addresses this.

##### #4 - 08/22/2014 09:23 AM - Eric Helms
