

Katello - Bug #6807

Host collection list doesn't update the 'content host' count on immediately adding new host to selected host-collection

07/28/2014 03:40 PM - Partha Aji

Bugzilla link:	1103033	Red Hat JIRA:
Pull request:		
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1103033 Description of problem: I created a host-collection named as 'HC1' and added two content-host to it. But host-collection doesn't update content-host count on list page as soon as you add the content host in it. It shows always '0'. But if you navigate away from "host collection" tab to something else and come back then count will be updated. Version-Release number of selected component (if applicable): sat6 beta snap7 compose2 (Satellite-6.0.3-RHEL-6-20140528.4) How reproducible: always Steps to Reproduce: 1. create a host collection 2. add two new hosts to host-collection 3. Actual results: Expected results: count should be updated immediately on adding new content hosts to host-collection Additional info:
