Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1118764
Description of problem:
The provided kickstart files in Satellite 6 install Puppet, but not katello-agent. Katello-agent should be installed by default too, since it provides significant parts of the realtime management features of Satellite 6.

Version-Release number of selected component (if applicable):
Public beta, 6.0.3

How reproducible:

Steps to Reproduce:
1. install satellite 6 and sync server and rh-common repos
2. kickstart new vm
3.

Actual results:
Only Puppet is installed

Expected results:
Puppet and katello-agent are installed; goferd is running
