Pull request:	https://github.com/theforeman/foreman/pull/1639		

Description

I updated from 1.4.5 to 1.5.2. After the upgrade the following error occured when starting foreman:

Validation failed: Search Invalid search query: Field 'compute_resource_id' not recognized for searching! (ActiveRecord::RecordInvalid)

After commenting out this line Foreman started: https://github.com/theforeman/foreman/blob/1.5-stable/app/models/filter.rb#L47

- translation missing: en.field_release set to 20

#3 - 07/30/2014 04:12 AM - Dominic Cleal

I think what's happening is we're creating a filter during DB migration (for 1.4 to 1.5 auth changes) and this is invalid.

#4 - 07/30/2014 06:46 AM - Dominic Cleal

As a workaround, comment out this line in /usr/share/foreman/app/models/filter.rb, circa line 47:

```
validates_with ScopedSearchValidator
```

#5 - 07/30/2014 03:34 PM - Jason Barnett

Just to give you some feeback. I ran into this problem and commenting out `validates_with ScopedSearchValidator` worked to get around the issue.

#6 - 07/31/2014 04:07 PM - Joshua Hoblitt

I hit the same issue upgrading from 1.4 to the 1.5.2-1 RPMs. Commenting line 47 in filer.rb also fixed it.
