Installer - Bug #6862

Rerunning the installer after some issue doesn't make sure that the rake tasks (migreate, seed, apipie:cache) were finished

07/31/2014 07:57 AM - Ivan Necas

Description

Currently, the rake tasks are marked a `refreshonly`, which causes a pain, if there were some failures causing for example the `db:migrate` to fail and after addressing the issues, the db:migrate is not run anymore.
