

## Foreman - Bug #6865

### Error notifications should not be popped up on top menus

07/31/2014 09:12 AM - Dominic Cleal

<b>Status:</b> Rejected	
<b>Priority:</b> Normal	
<b>Assignee:</b> Tomer Brisker	
<b>Category:</b> Web Interface	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1125156	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/theforeman/foreman/pull/3313">https://github.com/theforeman/foreman/pull/3313</a>	
<b>Description</b> Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1125156">https://bugzilla.redhat.com/show_bug.cgi?id=1125156</a> Description of problem: I was trying some boundary value testing with defined param under settings--> General.  So I changed the value of "entries_per_page" param to '0', and UI throws an error. And that error message actually hides top right menus( Admin user and Administer). Please see screenshot.  Our automation actually failing because of this issue. Reason: Once the test is executed with one data set, UI logged out but here since the notification hiding the top right menu, so logout doesn't work as selenium is unable to select the logged user menu.  We have a workaround, when the error notification raised, we can close it before logout. But it would be great if we can fix it in product as well. Thanks  Version-Release number of selected component (if applicable): sat6 GA snap1  How reproducible: always  Steps to Reproduce: 1. 2. 3.  Actual results:  Expected results: Error notifications should not hide top menus  Additional info:

#### History

**#1 - 07/31/2014 09:12 AM - Dominic Cleal**

- Category set to Web Interface

**#2 - 03/14/2016 05:59 AM - The Foreman Bot**

- Status changed from New to Ready For Testing

- Assignee set to Tomer Brisker

- Pull request <https://github.com/theforeman/foreman/pull/3313> added

**#3 - 04/21/2016 03:37 AM - Tomer Brisker**

- Status changed from *Ready For Testing* to *Rejected*

After some debate, it has been agreed that moving the notification lower will lead to different issues. The current notifications should be replaced by patternfly toast notifications anyways since jnotify is not actively maintained. I have opened [#14178](#) to handle that change. Closing this issue as rejected.
